City and Countywide Benefits

**A vision for 2100: One Resilient Shoreline**

**Project Assistance.** Will plan, permit, design, construct and provide long-term maintenance for projects.

**Funding Access.** Will access and leverage state and federal funds.

**Public Education.** Will educate stakeholders and the public on the need for any potential revenue measures to fund the Agency or implementation of projects.

**Prioritized Multibenefit Projects.** Will ensure that collaborative projects will be coordinated, won’t create unintended consequences, and won’t duplicate efforts.

**Stormwater Detention Solutions.** Will be implemented from C/CAG’s plan for countywide compliance on the Municipal Regional Permit.

---

**A Resilient Future**

Accomplishing these efforts together will ensure that collectively we build our resilient future.

---

**Annual Funding**

| Tier 1 Cities | $175,000 |
| Tier 2 Cities | $360,000 |
| Tier 3 Cities | $220,000 |

---

**City Break-Down (Based on Population)**

---

**Financial Benefit of Acting Now to Create a Resilient Shoreline**

Each $1 spent on mitigation saves an average of $6 in future disaster costs.

**Contact**

Are you ready to leverage our opportunities to create a one shoreline resilient county? Contact Erika Powell, San Mateo County, epowell@smcgov.org, (650) 599-1488

---

“...so let’s work together across city boundaries to help our citizens in the battle against rising waters and the rising costs of coping with this global threat.”

– Jackie Speier, U.S. Congresswoman
San Mateo County and its cities have been addressing sea level rise, flooding, coastal erosion, and stormwater retention in a variety of ways.

**San Mateo County Flood Control District (FCD)**
Formed in 1959, addresses flooding in three county flood zones; oversees a budget of approximately $3.8 million.

<table>

</tr>
</tbody>
</table>

**Independent City Efforts**
Several cities have pursued flood mitigation projects.

- Foster City Levees
- North Shoreview Flood Projects
- Will be improved using recent bond money

**Other County Efforts**
These planning efforts include County and City/County collaborations that have engaged numerous stakeholders.

**Flood Resilience Program (FRP)**
A County initiative that addresses flood risks in cross-jurisdictional areas through memorandums of understanding (MOUs).

- Belmont Creek
  - Developed a Watershed Management Plan to obtain grants
  - Navigable Slough Feasibility Study
  - Bayfront Canal
  - Applied for over $14 million worth of state/federal construction funding

**Focus on 2100**
The agency would develop and implement a plan to prepare San Mateo County’s Bayshore and Coastside for 2100 sea level rise.

**Mission & Vision of the Flood and Sea Level Rise Resiliency Agency**
The agency would consolidate the work of the SMC Flood Control District and Flood Resiliency Program and initiate new countywide efforts to address sea level rise, flooding, coastal erosion, and large-scale stormwater infrastructure improvements through integrated regional planning, project implementation, and long-term maintenance.

- Create Multi-Jurisdictional Solutions: The agency would facilitate and monitor existing FRP MOUs, and create new MOUs, addressing cross-jurisdictional issues.
- Leverage State & Federal Funding: By prioritizing and coordinating projects countywide, the agency would position the County to seek substantial state and federal funding.

**First Priority Actions**
Create the Agency. The Flood and Sea Level Rise Resiliency Agency would be created by modifying the existing FCD through state legislation. A 7-person board (2 county supervisors, 5 city councilmembers) will govern the agency.

- Priority Plan: Develop a Flood & Sea Level Rise Resiliency Investment Plan.
- Secure Long-term Funding: Secure sustainable long-term funding for the agency.
- Project Funding: Pursue state and federal grants for planning and implementation of projects.

**MOU Services**
Continue existing FRP MOUs and create additional MOUs.

**Continued Success**
Successful FRP efforts will be carried over into the new priority plan.
